

MacGregor drydock kits for Triton steering gear

At your service

MACGREGOR

Designed to perform with the sea

MacGregor now offers a comprehensive spare parts kit for Triton rotary-vane steering gear, ideal for use when a vessel is in drydock. The kit has been designed to ensure that the spare parts needed for a typical drydock are to hand, easing the drydock process and giving operators a fixed, predictable service price. All spares are extensively tested, inspected and delivered with a MacGregor guarantee and support from our global service network.

As a market-leading original equipment manufacturer (OEM), MacGregor offers similar spare parts kits for its Hatlapa steering gear.

Types of rotary-vane steering gear

- All MacGregor Triton rotary-vane steering gear is supported by this specially-designed spare parts kit

Spare parts included:

- Hydraulic
- Mechanical
- Consumable

Critical equipment safety

Steering gear is critical equipment, vital to a vessel's performance and the safety of its crew and cargo. It needs continual condition monitoring and regular visual inspections to assess how the steering gear is performing during operations.

When a vessel is in drydock, it offers the perfect opportunity to ensure equipment is in peak condition, preventing the potential for incidents and downtime, before being returned for long periods at sea.

MacGregor rotary-vane drydock kits ensure you have everything needed for proactive maintenance and a thorough overhaul of your steering gear.

MacGregor class-certified OEM spare parts enhance the operational availability of your equipment, along with the safety of your vessel.

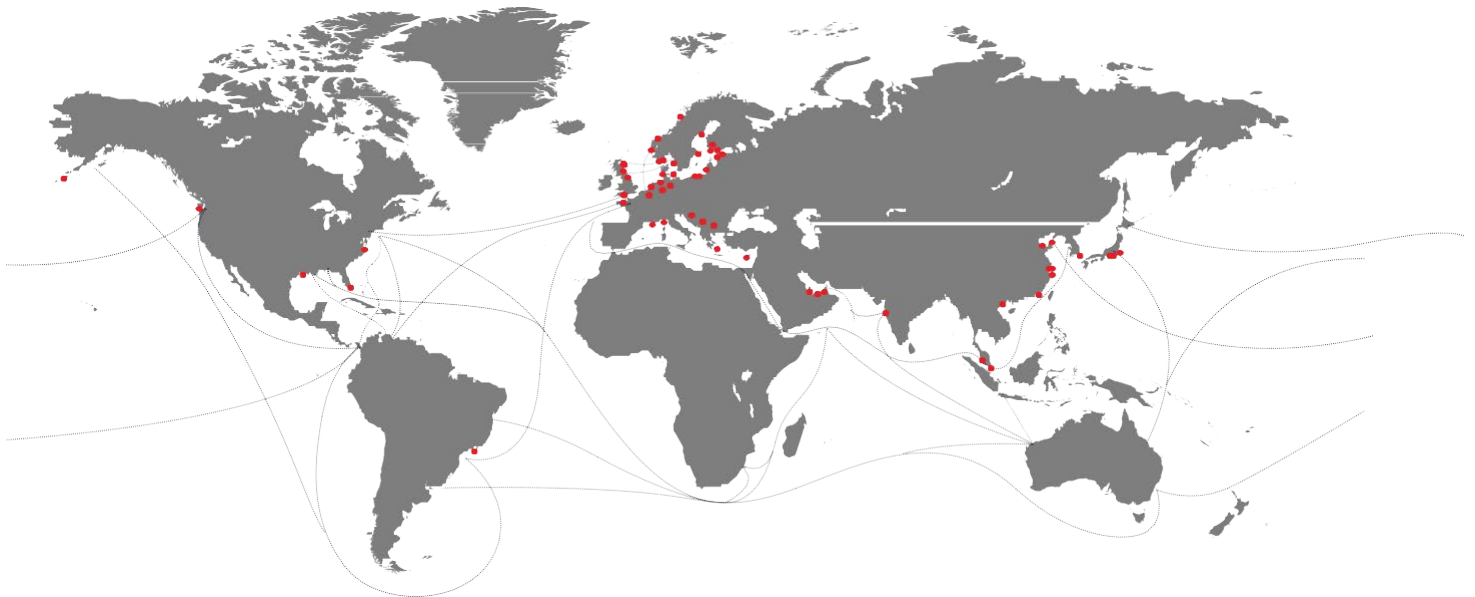

Key advantages

- Fixed special price for each drydock spare parts kit
- Rapid shipment deliveries
- Delivered with a MacGregor guarantee
- Support from our global service network
