

MacGregor hatch cover control stand modernisations

For all major makes and models of hatch covers fitted on board bulk carriers and general cargo ships

At your service

MACGREGOR

Designed to perform with the sea

Through upgrades and modernisations, operators can take advantage of all the benefits that technological advances can deliver. A control stand modernisation enhances hatch cover operations and ensures safety and ease of use.

MacGregor offers control stand modernisations for all major makes and models of hatch covers fitted on board bulk carriers and general cargo ships.

Instead of continuous repairs and repeated component changes, your hatch cover control stands can be upgraded to have all the advantages that modern technology can offer.

- **Modernised control stand enables safer hatch cover operations**
- **MacGregor OEM standards guarantee best quality of work and components**
- **Tested and proven applications minimise risks**

We supply control stand modifications for

- All MacGregor equipment
- Non-Macgregor Equipment

Advantages offered by control stand modernisations

- Prolonged service life
- Easier and safer operation
- Improved spare parts availability
- Reduced need for time-consuming and costly maintenance and repairs
- Less environmental impact
- Easy to install
- Enhanced hatch cover operation and safety

Our control stand modifications include

- Pre-project inspection
- Engineering, design and procurement
- Control stand, operating valves and consumable spare parts
- Installation and commissioning

Unique benefits of MacGregor control stand modifications

- All work and components comply with the highest MacGregor original equipment manufacturer standards
- Delivered with a MacGregor guarantee
- Tested and proven application
- 24/7 support from MacGregor's service network

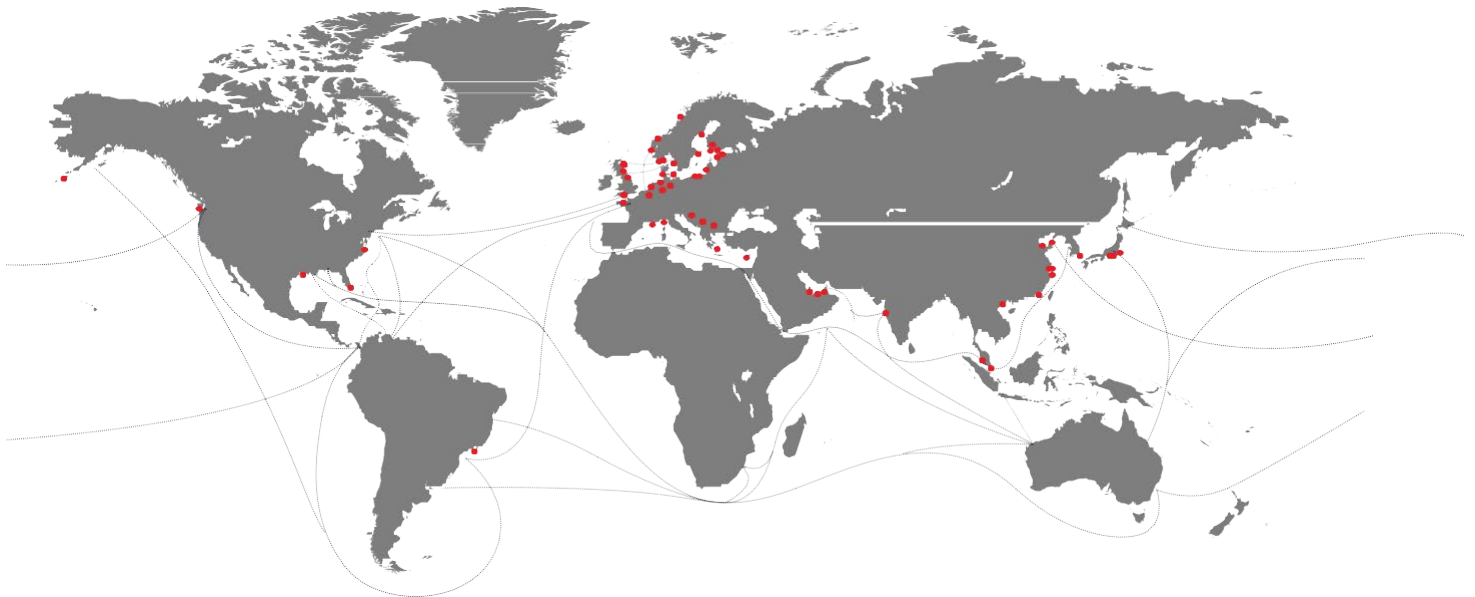

Other hatch cover projects/services supplied

- Payload calculations for bulk carriers
- Cement/grain hatches for existing covers
- Ventilators for existing hatch covers
- Customer defined projects
- Retrofits, conversions, overhaul and maintenance
- Inspections and drydocking supervision
